

Quincy is one of the most athletic, quickest, horses we've had the pleasure to train. He is solid in the heading and heeling (hauled and won money on). He is excelling in the breakaway and calf roping. Works a lot of rope and has a nice stop. Quiet in the box and one of the most willing to please horse we've been around. Quincy has drug a lot of calves to the fire and has been ranched on extensively in the badlands. Absolutely no buck.

Take him to the amateur or professional level rodeos and then let the kids ride him. We've used him for riding lessons and had little kids on him. He is really quiet.

Quincy is 6 years old and has a whole lifetime ahead of him. He's a one of a kind...looks, mind, and athletic!
